

ITERATION

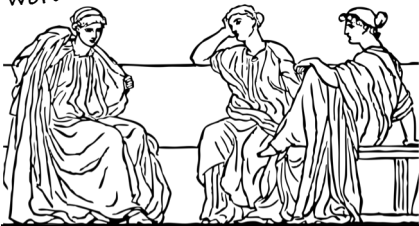

*Iteration is a construct
where the code repeats
until a condition is met*

FOR

*FOR loops repeat a set
number of times*

*The word "iteration" comes from the Latin
word "iter" which means "again"*

CONDITION

*This has to be True
for the code to run*

WHILE

*WHILE loops
repeat until a
condition is no
longer met*

DO UNTIL

*DO until loops repeat until
a condition is met*
